

Contoocook Riverway Assn. Mtg.

March 28, 2018 7:00pm @ Depot

Topic: T.D.S. Section House  
(moving process and new location)

Attendees: Steve Lux, Brian Erickson, Lattin Brown, Fred Nystrom, Keith Wallace, Mark Wenzler.

Everyone agreed that three locations should be considered to put the Section House that T.D.S. Co. on Hearsarg St. is offering to the C.R.A.

Location #1: Between Pullman car and the River. Pros Cons

- |   |                  |
|---|------------------|
| - Easy access to items needed in projects | - snow           |
| - historically visible and accurate       | - land ownership |
| - won't interfere with boat launch area.  | - parking sites  |

- will help better define parking spots

- will enhance band acoustics

- more definition of site lines from many angles.

Note: an 8' right of way exists along Pullman car.

Currently approx. 22' is in use

Location #2: Behind Bank

Pros

- historical area

Cons

- too far from Depot  
- electricity connect  
- less functional  
- too far from  
continuity of Depot site

Location #3: Parking lot on East side  
of Depot.

Pros

|

Cons

- makes viewing  
Depot & Pullman  
area obstructed,  
crowded  
- underground water  
sewer & electrical  
lines exist there.

Further discussion varied. Foundation  
and actual moving the building will be  
further researched and all agreed that  
fund raising / interest / media coverage, etc  
should also be a priority

Meeting adjourned. 8:40 p.m.

A. B. Brown
